

Roadmaster Ltd

NZTTMF Member Since: 1991

Now among the largest of New Zealand trailer builders, Roadmaster Ltd has been in operation since 1991. They attribute their longevity, their success and their growth to continuous liaison with their clients and to establishing a clear understanding of each client's needs.

Crucial to that is a commitment by all Roadmaster staff to "be the best, build the best." By having that culture and by working closely with the client, Roadmaster builds and maintains its successful relationships. The company's manufacturing operation is in Rotorua and includes cutting and fabrication, trailer assembly, truck body assembly, painting, finishing and final quality assurance checks. High-tensile fabrication is a rapidly growing part of the business and Roadmaster is adept at getting the best out of this often challenging process.

The range of trailers is equally extensive: curtainsiders, solidsides and flatdecks among them.

As well as the new builds Roadmaster has for sale an extensive—and diverse—range of pre-owned trailers, accessible on the company's website.

Roadmaster is constantly evolving by delivering transport solutions. They continue to add new products to the current range and continually adapt and design trailers to meet specialised applications.

In addition to its Rotorua manufacturing plant, Roadmaster also has a sales and service base in Auckland and sales agents across the lower half of the North Island and throughout the South Island for nationwide service delivery.

The company states that its aim is simple: deliver on the promise. It does so with a tenacity and focus that is truly typified by its (red) Bull logo, possibly one of the most famous and visible of all New Zealand trailer logos.
