

## Delta Stockcrates Limited

NZTTMF Member Since: 2001

Delta Stock Crates is New Zealand's largest manufacturer of alloy stock crates.

However, despite their size—or perhaps because of it—no two Delta stock crates are the same.

From their fully-equipped manufacturing and service facilities in Feilding and Timaru, Delta Stock Crates have the experience and the resources to tailor-make stock crates to meet a customer's exact needs.

The company prides itself in rising to the challenge of customising crates that fit specific purposes and meet customers' specifications while providing the finely-honed balance of tare weight, durability and competitive pricing.

The common element of all Delta crates, though, is quality. Each new Delta crate or truck deck comes with the assurance of a full 2-year manufacturers warranty against product defects or faulty workmanship.

All are AssureQuality certified.

Delta Stock Crates is a member of the New Zealand Road Transport Forum and the New Zealand Truck-Trailer Manufacturers Federation.

From its two plants, the company is able to service both the North and South islands. And from both plants it offers monocoque and standard platform crates, flat and rib sided options, a range of floor and door configurations, ute canopies, horse boxes, alloy ATV trailers and alloy loading race ramps.

However, that is just the base range—Delta promises to turn its hand to just about anything. Their website (see below) says that no job is too small or too big for the highly experienced Delta Stock Crates team.

**WHO:** Delta Stock Crates

**WHERE:** Feilding and Timaru.

**WHAT:** New and used stock crates and truck decks.

**WEBSITE:** <http://www.deltacrates.co.nz/>
